

The Curious Incident of the Dog in the Night-Time | Visual Indicator Follow-Along

The Curious Incident of the Dog in the Night-Time is an adventurous mystery that can be, at times, emotionally charged or involve moments of threats or physical violence. To prepare our audiences in these moments, we will have two staff members at the front of the stage who will alert the audience by holding up glow sticks 10 – 20 seconds before the moment is to occur. We will be practicing this at curtain call so you know what this looks like.

If at any time you feel like you need a break from the performance, please feel free to use our accommodations or break space locations. The full list of locations can be found on the other side of this paper. Ushers will also be available if you need assistance.
